WHAT IS SAKE?

Sake is a strong part of history in Japan with over 2000 years of brewing. To this day there are still around 1,500 breweries active. Sake is made from rice, water, yeast and koji.

Sake which is made on rice is a beverage category all by itself. It has an elegant soft expression, allowing delicate fresh foods like sashimi to still express itself. All Sake has no preservatives and is gluten free.

ALL SAKE STYLES CAN BE SERVED CHILLED, ROOM TEMPERATURE OR WARM.

- ¥ Junmai - Any sake produced only with rice, water, koji, and yeast.
